Dear Marge:

I would just like to let you and your staff know how pleased we are with our So de la Renta shopping bag. We know the design was difficult to produce, but the precision with which you held the border tolerance was something we never thought we would be able to achieve outside of the orient. We were also extremely pleased with the integrity of color and trapping of the complex design.

In addition, the reduced time frame allowed by assembling in Mexico made our tight delivery date possible to achieve.

Thank you again for a job well done!

Sincerely,

Carol Puttre-Czyz
